

# Fired Up About Reproductive Rights: A Must-Read for Advocates and Activists

Reproductive rights are under attack. In recent years, we have seen a wave of restrictive laws passed in states across the country, making it harder for people to access abortion and contraception. These laws are part of a larger effort to roll back the progress that has been made on reproductive rights over the past several decades.

In the face of these attacks, it is more important than ever to be fired up about reproductive rights. We need to educate ourselves about the issue, get involved in activism, and support organizations that are fighting for reproductive justice.
