The book is divided into three parts. The first part provides an overview of the human right to health, and how this right is violated by poverty and austerity. The second part examines the impact of austerity measures on the health of low-income Californians, with a focus on the areas of housing, food security, and healthcare. The third part presents a number of case studies of successful health justice campaigns in California, and offers recommendations for how to move forward.

The book is a valuable resource for anyone interested in health justice, human rights, and the impact of poverty on health.

- Part 2: The Impact of Austerity on the Health of Low-Income Californians
- Part 3: Case Studies of Health Justice Campaigns in California

Reviews

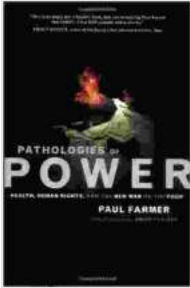

"This book is a must-read for anyone interested in health justice, human rights, and the impact of poverty on health. The authors provide a comprehensive overview of the human right to health, and how this right is violated by poverty and austerity. They also examine the impact of austerity measures on the health of low-income Californians, with a focus on the areas of housing, food security, and healthcare. The book concludes with a number of case studies of successful health justice campaigns in California, and offers recommendations for how to move forward. This book is a valuable resource for anyone interested in these topics."

- Dr. Paul Farmer, Harvard Medical School

"This book is a powerful indictment of the 'new war on the poor' and its devastating impact on the health of low-income Californians. The authors provide a detailed and well-documented account of the ways in which austerity measures have harmed the health of Californians, and they offer a

number of concrete recommendations for how to move forward. This book is a must-read for anyone concerned about the health of our communities."

- Dr. David Himmelstein, City University of New York
