A World of Splendor

Imagine the towering splendor of royal palaces, adorned with tapestries and shimmering gold. Within these opulent halls, a privileged few enjoyed lives of luxury and indulgence. Kings, queens, and noblemen wielded immense power, presiding over a realm where chivalry and courtly love flourished.

The Harsh Reality of Peasant Life

In stark contrast to the royal courts, the vast majority of Englishmen lived in abject poverty. Peasants toiled tirelessly on unforgiving land, barely eking out a meager existence. Their homes were humble cottages, often mere huts made of mud and thatch. Disease and malnutrition were rampant, making life expectancy short and precarious.

Peasants endured a life of backbreaking labor and relentless poverty.

The Black Death: A Devastating Scourge

In the mid-14th century, a relentless and merciless scourge swept across England: the Black Death. This devastating plague claimed the lives of up to half the population, leaving a trail of misery and devastation in its wake.

Towns and villages were decimated, as the disease spared neither rich nor poor.
