The Last Seven Months of Anne Frank is a new book that tells the story of Anne's final months in hiding and her tragic death at Bergen-Belsen concentration camp. The book is based on the research of Holocaust survivor and historian Dr. Ruud van der Rol, who has spent decades studying Anne Frank's life and death.

Van der Rol's book provides a new and heartbreaking account of Anne's last months. He reveals that Anne and her family were not alone in hiding during those final months. They were joined by a group of other Jewish families, including the Van Pels family and the Pfeffer family. Together,

these families endured the constant fear of discovery and the daily deprivations of life in hiding.

Van der Rol's book also provides new insights into Anne's character. He shows that Anne was a complex and multifaceted young woman. She was intelligent, creative, and optimistic. But she was also vulnerable and subject to moments of doubt and despair.

The Last Seven Months of Anne Frank is a powerful and moving account of Anne's life and death. It is a book that will stay with you long after you finish reading it.
